

## UIC PROGRAM

UniSadhuGuna International College (UIC) is a further example of the UniSadhuGuna Education Group's commitment to international standards in education and building international relationships for the development of Indonesia. Launched in 2006, the College now offers a variety of majors in the fields of Business and Design.

The UIC Business comprises five, where the UIC Design has three BTEC HND Internationally recognised qualifications. Each two year BTEC HND qualification allows students to progress to further education at universities overseas as well as prepare students with specialist knowledge, skills and confidence to make an immediate impact in the modern workplace environment.

Students will have opportunities to develop the following to help them achieve success in their studies and successful performance in their working life. These includes:

- Understanding key knowledge and skills required for success in various business and design managerial positions.
- Develop a range of skills and abilities, personal qualities and success attributes that will enable them to achieve high performance in their future studies and/or in the workplace.
- The flexibility and adaptable to tackle a range of business, design, research and management challenges in pursuit of careers, whether in higher education or in the workplace.
- Have the opportunity to transfer to an undergraduate degree program and further professional qualifications in business and design to advance student's career prospects
